

INDIANA PERINATAL NETWORK RESOURCE ORDER FORM

Integrating Screening and Treatment of Substance Use into Prenatal Care

This comprehensive, CME-approved provider training program addresses tobacco, alcohol and other drug use during pregnancy.

The 2 disc set includes:

- A **DVD** that incorporates practical role-play scenarios with clinical and research-based material and interventions. *Featuring the work of Dr. James Nocon, Clinical Associate Professor, IU School of Medicine and Director of the Prenatal Recovery Clinic at Wishard Memorial Hospital.*
- A **companion CD** with PowerPoint presentations on related clinical topics, referral resources and information on how to obtain reimbursement for screening and intervention services.
